10	90-Day Action Plan

SECTION 01

Boldlabs Studio has a strong positioning concept ("booking-first websites") and a clean portfolio. But right now, Google cannot rank you for anything because you are sitting on a Vercel subdomain with zero domain authority, no blog, no Google Business Profile, no schema markup, and no local landing pages. The marketing side has conversion friction points that will lose international clients before they even read the pricing.

The good news: your competitors in Madurai are mostly generic full-service agencies with no clear niche. You are the only one in the city targeting service businesses with booking automation. That is a white space you can dominate within 60 to 90 days if the technical foundation is fixed first.

DOMAIN AUTHORITY (VERCEL.APP)	GBP GOOGLE BUSINESS PROFILE	INDEXED BLOG PAGES	SINGLE PAGE SITE (NO SUBPAGES INDEXED)	REAL COMPETITORS IN MADURAI

SECTION 02

Current Site Audit — boldlabs.vercel.app

What is Working

POSITIONING
"Booking-first websites" is a clear, differentiated hook. Most Madurai competitors say "we build websites" with zero angle. You have a specific outcome.
CASE STUDIES
180 Tattoo Studio, Zyropets, Ze&Zow, RGHT Tax — four real clients with visible screenshots and live links. This is stronger than 90% of local competitors.
PRICING TRANSPARENCY
Starting prices (\$799 / ₹22,000) are visible. The comparison table vs "one-time build agencies" is excellent. Most competitors hide pricing entirely.
FAQ SECTION
8 detailed FAQs already on the page. Once schema is added, these become FAQ rich snippets in Google, which increase CTR by 20-30%.

Critical Problems

● CRITICAL — DOMAIN
Sitting on vercel.app
Google cannot give domain authority to a subdomain you don't own. Every backlink, every ranking signal, every trust signal is being built on someone else's domain. Move to goboldlabs.com immediately.
● CRITICAL — GBP MISSING
No Google Business Profile
Businesses with a complete GBP are 2.7x more trusted, 70% more likely to get a visit, and 50% more likely to get a purchase. The local 3-Pack gets 93% more clicks than positions 4-10. You are invisible on Maps.
● CRITICAL — NO BLOG

Zero Content / Topical Authority

You have no pages for Google to index beyond the homepage. No blog = no organic traffic = no ranking for any keyword. Competitors like Rank You Higher (Madurai) rank because of content volume.

🔴 HIGH — JS COUNTERS AT ZERO

Stats Show 0+ and 0%

The animated counters (Active Sites, Sales Boost, Admin, Lock-ins) display "0+" to slow connections and search crawlers. Hard-code actual numbers: 31+ sites, 53% avg boost, etc.

🔴 HIGH — NO SCHEMA MARKUP

Missing Structured Data

No LocalBusiness, FAQ, Service, or Organization schema. Google cannot understand what your business does, where it is located, or what your services are beyond basic HTML parsing.

🔴 HIGH — NO LOCATION PAGES

Zero Geo-Targeting

You mention UK, USA, India in the hero text but have zero location-specific landing pages. You cannot rank for "web developer Madurai" or "web agency Brampton" without dedicated pages.

🟡 MEDIUM — RPG CHARACTER CARD

Bhuvanesh's Profile Section

The game-card aesthetic ("STAGE 3 Bhuvanesh, Age 26, WEAKNESS: Half-Baked Designs") reads fun locally. For an AU/CA accountant or clinic owner, it destroys trust at the exact moment they should be deciding to call you.

🟡 MEDIUM — WHATSAPP-FIRST FORM

Contact Form Priority

Asking for a WhatsApp number before email works for Indian clients. Canadian and UK clients will not enter a WhatsApp number and will leave. Show email option first for international traffic.

🟡 MEDIUM — "PROTAGONIST LOADED"

Footer Copy

This is a fun easter egg but it makes the site look like a side project, not a professional studio an Australian business would hand \$799+ to. Replace with a professional closing line.

Meta & Technical Snapshot

ELEMENT	CURRENT STATE	STATUS	FIX REQUIRED
Title Tag	Boldlabs Studio — Booking-First Websites for Service Businesses	PARTIAL	Add "Madurai" for local version
Meta Description	Present — mentions booking, automation, cancel anytime	OK	Minor refinement for CTR
H1 Tag	"YOUR WEBSITE CAN'T DO ITS JOB."	PARTIAL	Catchy but not keyword-rich
Image Alt Text	Case study images have alt text — good	OK	Verify all images have alt text
Sitemap	Not confirmed / not linked	MISSING	Create sitemap.xml, submit to GSC

Robots.txt	Not confirmed	UNKNOWN	Create and verify
Schema Markup	None detected	MISSING	Add Organization, LocalBusiness, FAQ, Service
HTTPS	Yes (Vercel provides SSL)	OK	Will carry over to new domain
Mobile Responsive	Yes, mobile-first design	OK	Verify Core Web Vitals on PageSpeed
GA4 / Search Console	Not confirmed	UNKNOWN	Set up both immediately
Canonical Tags	Not confirmed	UNKNOWN	Add canonical on every page
Open Graph Tags	Not confirmed	UNKNOWN	Add for social sharing previews

SECTION 03

These are the agencies currently ranking on Google for "web design Madurai" and "web development company Madurai". Analysed from search results and public data.

COMPETITOR	POSITIONING	STRENGTHS	WEAKNESSES	YOUR EDGE
Rank You Higher rankyouhigher.in	Full-service digital marketing + SEO + web dev. Targeting Madurai businesses broadly.	343 Google reviews, 4.8★. Since 2016. Madurai brand recognition. GBP optimized. 300+ clients claimed.	Generic — no clear niche. Sells SEO, ads, web design all together. No specific vertical focus. Cluttered messaging.	You own a specific outcome: bookings. They sell visibility. You sell revenue directly.
CBRA India cbraindia.com	"Full-service web design + digital growth marketing." ~20 years experience claim.	Long domain age, listed on multiple directories. Shopify + WP + branding under one roof.	Generic messaging, no outcome-specific positioning. No visible pricing. No modern design aesthetic.	Booking-first focus + subscription model vs their one-off project approach.
Spiegel Technologies spiegeltechnologies.com	Web design + ecommerce + digital marketing for Madurai businesses.	Listed on Sortlist, multiple category listings. Local presence.	No differentiation, outdated aesthetic, generic service list. No proof points or case stats.	You have real case stats (53% AOV increase). They have none visible.
Awrange awrange.com	"Best website development company in Madurai Tamil Nadu India." SEO-heavy page targeting Madurai + Tamil Nadu + India keywords.	Very keyword-optimized pages. Health Center + local ranking claim (3 months). Google Lighthouse mention.	Copy-paste SEO tone, lacks authentic voice. No real portfolio on search result. Generic testimonials.	Your case studies are real, live sites. Their portfolio is not verifiable from listings.
DigitalWebdia digitalwebdia.com	Web design + SEO + GMB services. Niche pages for	Individual niche pages (dental, gym, retail) —	Busy UI, no clear pricing, no founder	You have a founder story and

	gyns, dental clinics, retail in Madurai.	this is smart topic cluster SEO. Multiple Madurai landing pages.	identity. Faceless agency look.	real portfolio. They are faceless. People hire people, not logos.
Digicare Infotech digicareinfotech.in	Web design + digital marketing + app dev. "No. 1 Web Design Company in Madurai."	Old established local presence. Multiple service categories. Local directory listed.	Outdated design. Weak proof points. Claims "#1" with no verified backing. Mobile experience likely poor.	Your design quality alone puts you ahead. Your booking niche is sharper.

Gap Analysis — What None of Your Madurai Competitors Are Doing

YOUR OPPORTUNITY

Booking-Specific Niche Pages

No Madurai agency has a dedicated page for "booking website for clinics Madurai" or "tattoo studio website Madurai." These are zero-competition, high-intent keywords you can own in weeks.

YOUR OPPORTUNITY

Founder Identity / Story

Every competitor is a faceless agency. You are Bhuvanesh — a real person with a real story. This is a massive trust signal, especially for local Tamil Nadu businesses who want to know who they are calling.

YOUR OPPORTUNITY

Subscription / Retainer Model

All competitors do one-off project billing. Your monthly retainer model is unique in this market and positions you as a long-term partner, not a freelancer who disappears post-launch.

SECTION 04

Competitor Audit — UK, Canada, US

These are the agencies and freelancers your international prospects compare when searching "web developer for service business" or "booking website agency." Understanding what they do shows you how to position Boldlabs as the affordable, high-quality offshore alternative.

UK Market

TYPE	PRICING RANGE	WHAT THEY DO WELL	YOUR COUNTER-POSITIONING
Mid-size UK agencies (FactoryJet, SmartWebAgency, etc.)	£1,500 - £8,000 per build + £99-£299/mo maintenance	Clutch reviews, ISO certification claims, case study depth, Lighthouse scores mentioned, local trust signals.	You deliver the same quality at £599-£799 (sub-\$1,000). Price gap alone wins if credibility is established through reviews and portfolio.

Wix/Squarespace	£800 - £3,000	Platform specialization, fast	You offer custom WordPress/React/Shopify —
-----------------	---------------	-------------------------------	--

specialists (Baslon Digital, etc.)		delivery, SEO-from-day-one claims.	more control, better performance, no platform lock-in. Position as "no Wix limitations."
Freelance developers on Clutch/Upwork (UK)	£50-£100/hr or £1,000-£3,000 per project	Direct communication, flexibility.	You add booking system + automation + monthly care. They hand off and leave. You stay.

Canada (Brampton / Ontario Focus)

TYPE	PRICING	INSIGHT
Local Brampton/Toronto boutique agencies	CAD \$2,000 – \$8,000	You already have RGHT Tax (Brampton CPA firm) as a case study. Use this as local social proof specifically for Canadian visitors — it shows you understand the Canadian market.
Indian offshore agencies selling to Canada	\$300 – \$800	Perception problem — cheap = risky. Boldlabs at \$799 needs to look premium, not budget. Your design quality and proof points close this gap.

What UK and Canadian Agencies Do That You Are Not Doing Yet

GAP Clutch.co Profile Every credible UK/CA agency in the market has a Clutch profile with reviews. Clutch is the B2B trust signal that replaces word-of-mouth for international buyers. You need one.
GAP Verified Client Testimonials UK agencies link testimonials to real LinkedIn profiles or named companies. Your testimonials (Mike O'Dell, Sanskar Raj Sinha) have no photo, no LinkedIn link, no verifiable company. International buyers will assume they are fake.
GAP Country-Specific Landing Pages All top agencies have separate pages for "web design London" or "web developer Brampton." You have zero geo pages outside your single homepage. A Canadian searching won't find you.
GAP Core Web Vitals Score UK agencies actively publish their Lighthouse scores (90+ performance, 95+ accessibility). Google weights page experience as a ranking factor. Run PageSpeed Insights and display your score as a trust badge.

Organized by market. Target these in the order listed — start with low-competition local terms, then build authority for international mid-volume terms.

PHASE 1 — MADURAI LOCAL (LOW COMPETITION, HIGH INTENT)	
web developer in Madurai	Low comp
website design company Madurai	Low comp
booking website for clinic Madurai	Zero comp
WordPress developer Madurai	Very low

Long-Tail Blog Keywords (Content Strategy – Organic Traffic)

Blog Title Target	Keyword Intent	Target Market
"How much does a website cost for a tattoo studio in 2026?"	Commercial investigation	UK / Australia
"Why your clinic is losing bookings without an online scheduling system"	Problem-aware	India / UK
"Best booking software for physiotherapy clinics in India 2026"	Research / comparison	India
"How a tattoo studio in Chennai tripled bookings with a custom website"	Case study / proof	India / UK / AU
"WooCommerce vs Shopify for Indian D2C brands — which one to pick?"	Research / comparison	India
"What is a booking-first website and why does your service business need one?"	Awareness / education	All markets
"Web developer in Madurai — what to look for before hiring"	High local intent	Madurai / Tamil Nadu
"How to automate WhatsApp confirmations for your salon bookings"	How-to / solution-aware	India
"White label web development for Indian digital agencies — full guide"	B2B commercial	India agencies
"53% increase in sales: how Amizhthini Foods fixed their checkout"	Case study / proof	All markets

SECTION 06

Marketing — Homepage Fixes

Every change below is based on what competitor agencies rank for, what international clients expect, and what the current site is losing conversions on.

Hero Section

FIX 01 — CRITICAL

H1 Tag: Replace "YOUR WEBSITE CAN'T DO ITS JOB." with a keyword-containing headline

The current H1 is catchy but Google uses it as a primary relevance signal. It contains zero keywords. Suggested H1: "Booking-

First Websites for Service Businesses — Built in Madurai, Deployed Worldwide." Or split — bold intro + subtitle that carries the keyword. Keep the tone, add the keyword. Example: Tagline stays as-is, H1 becomes: "I Build Websites That Take Bookings While You Work." Subtitle: "Custom WordPress, Shopify and React websites for service businesses in India, UK, Canada, and Australia."

FIX 02 — CRITICAL

Trust Badge: "Trusted by 31+ service businesses" needs country flags or client logos with links

Currently the ticker shows logos with no context. For international trust, display: "31+ businesses across India  UK  Canada " with flags. The scrolling logo ticker is fine but make at least 4 logos link to real live sites. This demonstrates proof on first scroll.

Stats Section

FIX 03 — CRITICAL

Hardcode all counter stats — remove JS animation dependency

Replace animated counters with hardcoded HTML numbers. Use: "31+" active sites, "53%" average sales boost, "10x" less admin time, "0" lock-ins. The JS animation looks broken on slow mobile connections and shows "0" to crawlers. Hardcoded numbers render immediately on every device.

About / Founder Section (Biggest Problem)

FIX 04 — CRITICAL FOR INTERNATIONAL CONVERSION

Replace the RPG character card with a real founder bio

The game card ("STAGE 3, Age 26, WEAKNESS: Half-Baked Designs") will make a 45-year-old Canadian CPA or UK clinic owner close the tab immediately. It signals "this is a side project by a gamer." Replace with a clean founder section: headshot photo, 3-line bio ("I'm Bhuvanesh. I left a full-time job in Madurai to build Boldlabs — a studio focused on one thing: websites that run your service business on autopilot. I've helped 31+ businesses across India, UK, and Canada replace WhatsApp chaos with real booking systems."), LinkedIn link, and 2-3 credibility lines (B.Sc CS, 1yr+ at Gradient X, portfolio links). The game aesthetic is fine as a small easter egg elsewhere. Not in the trust-building section.

Testimonials

FIX 05 — HIGH

Add photos, LinkedIn links, and second stat to both testimonials

Mike O'Dell's testimonial has the 53% stat — great. Sanskar Raj Sinha's has no metric. Both need: a real photo (or initials avatar at minimum), a LinkedIn profile link, and their company URL. Without these, international buyers assume the testimonials are fabricated. Even a company name link adds credibility. Add a third testimonial from an Indian local client (in Tamil if possible — shows local authority).

Pricing Section

FIX 06 — HIGH

Add "Most Popular" badge and a mini FAQ under pricing

The comparison table is excellent. Add a "Most Popular" highlight to the Monthly Care plan (since it's your best retention tool). Under the pricing cards, add 3 short FAQs: "Will I lose my domain?" "Do you work with international businesses?" "What time zone do you work in?" These address the exact objections international clients have before contacting an Indian agency.

Contact Form

FIX 07 — HIGH

Email-first for international, WhatsApp for India — use geo or toggle

The form currently asks for WhatsApp number first. For Indian clients this is correct. For UK/CA visitors, this is a conversion-killer. Add a simple radio or tab at the top of the form: "I'm based in India" / "I'm based outside India." Indian path shows WhatsApp-first. International shows email-first. Or simply reorder: name, email, WhatsApp (optional), country code. Make WhatsApp optional.

Footer

FIX 08 — MEDIUM

Replace "PROTAGONIST LOADED" with address + schema-ready location

The footer needs a real physical address (even a co-working space address in Madurai works). This is required for LocalBusiness schema and Google Business Profile consistency. Add: "Boldlabs Studio, Madurai, Tamil Nadu 625001, India | hello@boldlabs.studio" — this NAP consistency (Name, Address, Phone) is a core local SEO signal. Replace the game easter egg text entirely.

Missing Sections to Add

ADD THIS

Niche Service Pages (Linked from Homepage)

Add "Booking Websites for Tattoo Studios" | "Clinic Appointment Websites" | "Salon Booking Systems" as individual pages. Link from homepage. These pages rank for zero-competition niche keywords.

ADD THIS

Clutch / Google Review Widget

Embed a live Clutch or Google Business review widget in the reviews section once your GBP has reviews. Star ratings in search results increase CTR by 15-30%.

ADD THIS

Results Numbers (Proof Bar)

A single horizontal bar between hero and problem section: "31 sites built · 53% avg revenue lift · ₹0 setup fee · 5 countries served." Competitors do not have this. It's scannable proof.

SECTION 07

This is where to start. Local ranking in Madurai costs zero in ad spend and drives the highest-intent leads. The 3-Pack on Google Maps is where you need to appear when someone searches "web developer Madurai."

STEP 1 — WEEK 1 (NON-NEGOTIABLE)

Move Site to goboldlabs.com

Deploy the site on goboldlabs.com. Set up a 301 redirect from boldlabs.vercel.app. Submit new domain to Google Search Console. Without this, nothing else in this document matters for SEO.

- Purchase goboldlabs.com (or confirm you own it)
- Deploy current site to goboldlabs.com
- Set 301 redirect from vercel subdomain
- Add goboldlabs.com to Google Search Console
- Submit sitemap.xml to Search Console
- Set up GA4 with conversion tracking on form submissions

STEP 2 — WEEK 1 TO 2

Google Business Profile — The Biggest Single Win Available

Businesses in the Google 3-Pack receive 126% more traffic and 93% more actions than positions 4-10. 56% of businesses still have not fully optimized their GBP. This is your fastest path to Madurai visibility.

- Create Google Business Profile at business.google.com
- Category: "Web Designer" (primary) + "Internet Marketing Service" (secondary)
- Address: Use your real Madurai address or a verified co-working space
- Phone: Indian mobile number (+91)
- Website: goboldlabs.com
- Business description: 750 characters — include "web developer Madurai," "booking website," "WordPress," "WooCommerce," "Tamil Nadu"
- Upload 10+ photos: office/workspace, portfolio screenshots, team photo (you working)
- Add all services with individual descriptions
- Enable messaging + booking button
- Post 1 Google Post per week (project launch, tip, case study)
- Request reviews from all 31+ existing clients immediately

STEP 3 — WEEK 2 TO 3

On-Page SEO — Homepage & Service Pages

- Title: "Web Developer in Madurai | Booking-First Websites — Boldlabs Studio"
- Meta description: "Boldlabs Studio builds booking-first websites for service businesses in Madurai and Tamil Nadu. WordPress, Shopify, React. No setup fee. Month-to-month."
- H1: Contains "Madurai" or "Tamil Nadu" in addition to value prop
- Add "Madurai, Tamil Nadu" mention naturally in body text 3-5 times
- Footer: Physical address in NAP format (Name, Address, Phone)
- Create /madurai page: "Web Developer in Madurai" — 600+ word dedicated page
- Create /tamil-nadu page: "Web Development Company Tamil Nadu"

Schema Markup — Add All Four Types

- LocalBusiness schema: name, address, phone, URL, geo coordinates, openingHours, priceRange
- Organization schema: name, logo, sameAs (LinkedIn URL), contactPoint
- FAQ schema: wrap all 8 existing FAQs — enables Google rich snippet for FAQ
- Service schema: one per service offering (Website Build, Monthly Care, AI Automation, White Label)
- Person schema: Bhuvanesh — links you as a verified individual to the business
- Validate all schema at schema.org/validator before deploying

Local Directory Listings (NAP Consistency = Local Ranking Signal)

Get listed in these directories with the exact same Name, Address, Phone as your GBP. Inconsistent NAP is a local ranking killer. Use goboldlabs.com as the website URL everywhere.

- Justdial.com (most critical for Madurai local search)
- Sulekha.com (Tamil Nadu B2B services)
- IndiaMart (B2B India)
- Clutch.co (international B2B — also helps India searches)
- TechBehemoths.com (already listed competitors here)
- Sortlist.com (India + international)
- DesignRush.com
- GoodFirms.co
- LinkedIn Company Page (separate from personal — link to goboldlabs.com)

Google Reviews — The Fastest Local Ranking Lever

Rank You Higher has 343 reviews with 4.8 stars. That is why they dominate Madurai search. Reviews are one of the top 3 local ranking factors. You have 31+ clients. Every single one should leave a Google review.

- Create a direct Google review link (use Google's review link generator)
- Send a WhatsApp message to every past client: "Anna/akka, oru request — website launch panna udane Google review poduveenga?" (Tanglish for local clients)
- Add the review link to every project completion email
- Add to your email signature

→Reply to every review (positive and negative) within 24 hours — Google counts this

→Target: 20+ reviews in first 60 days. 50+ in 6 months.

SECTION 08

Phase 2 — UK, Canada, US (Months 2-6)

Once local SEO is stable (GBP live, 10+ reviews, homepage indexed), shift focus to international. This requires dedicated location landing pages, international trust signals, and content targeting UK/CA/US queries.

Location Landing Pages (Create One Per Market)

UK PAGE

/web-developer-uk

→Title: "Booking Website Developer for UK Service Businesses | Boldlabs"

→Feature RGHT Tax Brampton case study (Canadian, relatable to UK professional services)

→Mention £ pricing alongside \$ pricing

→UK-specific pain points: "Stop losing bookings to manual WhatsApp chains"

→UK timezone availability: "Available 9am-1pm UK time (GMT+0) for calls"

→Testimonial from Mike O'Dell featured prominently

→Link to 180 Tattoo Studio (demonstrates tattoo studio niche relevant to UK market)

CANADA PAGE

/web-developer-canada

→Title: "Web Developer for Canadian Service Businesses | Boldlabs Studio"

→Feature RGHT Tax & Accounting (Brampton) as the headline case study

→Show CAD pricing alongside USD

→EST/PST timezone availability note

→Mention: "Trusted by businesses in Brampton, Ontario"

→Canada-specific industries: CPA firms, physiotherapy, salons

→GST/HST mention (shows you understand Canadian billing)

International Trust Signals to Build

ACTION 01 — CLUTCH PROFILE

Create Clutch.co profile and collect 3+ verified reviews

Clutch is the #1 B2B directory used by UK and Canadian buyers to vet agencies. A profile with even 3 verified reviews from real companies puts you in the directory and gives you a badge ("Top Web Developer India 2026") you can display on your site. Ask Mike O'Dell and Sanskar Raj Sinha to leave Clutch reviews. Free to set up.

ACTION 02 — PHOTO TESTIMONIALS

Add real headshot photos and LinkedIn links to all testimonials

Contact Mike O'Dell and Sanskar Raj Sinha — ask for permission to display their photo and LinkedIn. If they cannot provide a photo, ask for their company website link. A testimonial with "Mike O'Dell, CEO, Hyalite Media Group | linkedin.com/in/[name]" is 10x more credible than a quote with no verification.

ACTION 03 — TIMEZONE & COMMUNICATION TRANSPARENCY

Add visible timezone availability for international clients

One friction point for UK/CA clients hiring Indian agencies is "will they respond quickly?" Publish your availability: "I work IST (UTC+5:30). Available for calls from 6:00 AM - 11:00 AM IST (which is 12:30 AM - 5:30 AM PST / 8:30 AM - 1:30 PM UK). Async WhatsApp replies within 4 hours." This removes doubt before it forms.

ACTION 04 — CURRENCY TOGGLE

Show ₹ / \$ / £ / CAD\$ pricing on the pricing page

Your current pricing shows \$799 · ₹22,000. Add a simple dropdown or show all four: \$799 USD · £630 GBP · CAD\$1,090 · ₹22,000 INR. International clients need to see their own currency to decide quickly. Even static conversion is fine.

Backlink Strategy for International Authority

SOURCE TYPE	HOW TO GET IT	IMPACT
Guest posts on web design blogs	Write "How I built a booking system for a tattoo studio in 3 weeks" — pitch to Smashing Magazine, CSS-Tricks, WP Beginner India	High — DA 60-90 sites
Indian web dev community features	Post case study on dev.to, Hashnode, IndiaHacks	Medium — builds topical authority
Client website footers	Ask every new client to add "Website by Boldlabs Studio" with a link — even 10 of these from real businesses adds real authority	Medium — builds real backlinks
Local Madurai business features	Contact Madurai local news sites, business directories, Chamber of Commerce listing	High for local SEO
LinkedIn articles republished	Publish case studies as LinkedIn articles with links back to goboldlabs.com — LinkedIn has high DA	Medium
Tattoo studio community forums	UK/AU tattoo forums and subreddits — mention your studio, genuinely help, link when appropriate	Niche authority building

You need at least 12 indexed blog posts before organic traffic starts coming. Publishing 2 posts per month gets you there in 6 months. Each post targets a specific long-tail keyword from the keyword table above. Below is the first 12-post content calendar.

First 12 Posts — Monthly Calendar

Month	Post Title	Primary Keyword	Target Market
Month 1	"Why Your Service Business Website Is Losing Bookings (And How to Fix It)"	booking website service business	All markets
Month 1	"Web Developer in Madurai — What to Look for Before Hiring in 2026"	web developer Madurai	Local Madurai
Month 2	"How 180 Tattoo Studio Tripled Online Bookings With a Custom Website"	tattoo studio booking website India	India / UK / AU
Month 2	"WooCommerce vs Shopify for Indian D2C Brands — The Honest Comparison"	WooCommerce vs Shopify India	India
Month 3	"What Is a Booking-First Website? (And Why Most Agency Sites Get It Wrong)"	booking-first website	All markets
Month 3	"How Much Does a Website Cost for a Tattoo Studio in the UK in 2026?"	tattoo studio website cost UK	UK / AU
Month 4	"How to Automate WhatsApp Booking Confirmations With n8n and Calendly"	WhatsApp booking automation India	India
Month 4	"Best Website Builder for Clinics in India: Why I Recommend WordPress Over Wix"	clinic booking website India	India
Month 5	"White Label Web Development for Indian Digital Agencies — Everything You Need to Know"	white label web development India	India agencies
Month 5	"53% Sales Increase: How Amizhthini Foods Fixed Their WooCommerce Checkout"	WooCommerce checkout conversion India	India / UK
Month 6	"WordPress vs React for Service Business Websites in 2026 — Which One to Choose?"	WordPress vs React website India	All markets
Month 6	"How a Canadian CPA Firm (RGHT Tax) Got a Custom React Website Under \$800"	affordable web developer Canada	Canada

Blog Post Structure (Follow This for Every Post)

Template

Every blog post needs this structure to rank

Title with primary keyword in first 60 characters. Introduction: problem statement in 2–3 sentences. H2s targeting secondary keywords. At least 800 words (1,200–1,500 ideal). One internal link to homepage and one to a service page. One external link to a credible source. Author byline: "Written by Bhuvanesh, Founder of Boldlabs Studio, Madurai." One call to action at the end: "Working on a service business website? Book a free 30-min call." Meta description: 155 characters with primary keyword. Featured image with alt text containing keyword.

90-Day Action Plan

Prioritized by impact and sequence. Do not skip to Week 5 tasks until Week 1 tasks are done. The domain move is the foundation. Nothing else ranks without it.

Week 1-2 (Foundation)

PRIORITY	TASK	OWNER	TIMELINE
P0	Move site from vercel.app to goboldlabs.com. Set 301 redirect. Submit to GSC.	Bhuvanesh	Day 1-2
P0	Set up GA4 + Google Search Console on new domain. Add sitemap.xml.	Bhuvanesh	Day 2-3
P0	Create Google Business Profile. Verify with postcard. Fill all fields.	Bhuvanesh	Day 3-7
P0	Hardcode all counter stats (remove JS animation dependency).	Bhuvanesh	Day 1
P1	Replace RPG character card with founder bio + headshot photo.	Bhuvanesh	Day 3-5

Bhuvanesh
Month 3
P2
Post 1 LinkedIn article per month (repurposed from blog). Drives traffic + DA.
Bhuvanesh
Month 3–6
P2
Monitor GSC weekly — identify which pages are getting impressions, optimize those first.
Bhuvanesh
Ongoing

Expected Timeline Results

MILESTONE	EXPECTED TIMELINE	SUCCESS INDICATOR
Google Business Profile live and verified	Day 7-14	GBP appears on Maps for "Boldlabs Studio Madurai"
Homepage indexed on goboldlabs.com	Day 7-21	site:goboldlabs.com shows pages in GSC
First 10 Google reviews collected	Day 30-45	Star rating appears in brand search results
Ranking for "web developer Madurai" in top 20	Day 45-60	GSC impressions for this keyword increase
Local 3-Pack appearance for Madurai searches	Day 60-90	Appears in top 3 map results for 1+ Madurai keyword
First organic blog traffic	Month 3-4	Blog pages appear in GSC with clicks
UK/Canada landing page ranking	Month 4-6	GSC impressions from UK/CA geos for target keywords
